SUBJECT INDEX: VOLUME 61

ABSTRACTS
151 Third World Congress of the Ukrainian Medical Association: medical consequences of the Chernobyl disaster
677 Annual meeting of the South African Radiation Protection Association

ACCELERATORS
921 Shielding against high energy radiation

ACCIDENT, ANALYSIS
281 The medical basis for radiation accident preparedness II: clinical experience and follow-up since 1979
578 The radiological accident in San Salvador
859 In vivo assessment of radiation exposure

ACCIDENTS, NUCLEAR
305 Determining optimal protective actions for nuclear incidents
401 Concept of a lifetime dose of 350 mSv
837 Radiocesium dynamics in fruit trees following the Chernobyl accident

ACCIDENTS, REACTOR
271 Multi-fractal nature of radioactivity deposition on soil after the Chernobyl accident

ACTINIUM-227
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium
919 Radiological significance of ^{227}Ac and ^{231}Pa
919 Reply from UNSCEAR
919 Reply to Lowe et al.

AEROSOLS
97 A CAM sampler for collecting and assessing α-emitting aerosol particles
215 Desorption of ^{220}Rn progeny from large surfaces by α- and β-recoil processes

AIR SAMPLING
97 A CAM sampler for collecting and assessing α-emitting aerosol particles
255 Radioiodine speciation in the hot cell effluent gases of a radiopharmaceutical production facility
785 Efficacy of air cleaning systems in controlling indoor radon decay products

AMERICIUM-241
337 Plutonium- or americium-induced liver tumors and lesions in beagles

ANALYSIS, COST-BENEFIT
305 Determining optimal protective actions for nuclear incidents

ANALYSIS, RISK
317 Catalog of risks extended and updated

415 Nuclear reaction effects in use of newly recommended quality factor

ANNUAL LIMIT ON INTAKE
915 ALIs are not MPBBs
915 Reply to Carter
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium

AS LOW AS REASONABLY ACHIEVABLE
435 Implementation of the principle of as low as reasonably achievable (ALARA) for medical and dental personnel
553 A description of the demonstration integral fast reactor fuel cycle facility

ATMOSPHERIC TESTING
105 Total tritium measurement in atmosphere

ATOMIC-BOMB SURVIVORS
631 Evidence of a neutron RBE of 70 (±50) for solid-tumor induction at Hiroshima and Nagasaki and its implications for assessing the effective neutron quality factor

ATTENUATION
565 Radiation shielding design for a hot repair facility
917 Addendum to 'Composite materials for x-ray protection'
917 Comment on 'Composite materials for x-ray protection'

BARIUM-133
191 Metabolism of injected barium in six healthy men

BIOASSAY
871 An improved method for the determining ^{89}Sr and ^{90}Sr in urine

BIOKINETICS
575 Human subjects used for biokinetic studies
576 Reply to Jacobson

BISMUTH-214
511 The half-lives of ^{214}Pb and ^{214}Bi
543 The measurement system for ^{222}Rn monitoring with charcoal adsorption collectors

BLOOD
623 Biological dosimetry using the micronucleus assay for lymphocytes: interindividual differences in dose-response

BONES, HUMAN
615 Naturally occurring ^{226}Ra concentrations in bone at various ages and α doses in adults
859 In vivo assessment of radiation exposure

BOOK REVIEWS
281 The medical basis for radiation accident preparedness II: clinical experience and follow-up since 1979
281 The relative biological effectiveness of radiations of different quality
282 Carcinogenically active compounds: a reference guide
282 The physics of medical x-ray imaging (or the photon and me: how I saw the light)
435 Implementation of the principle of as low as reasonably achievable (ALARA) for medical and dental personnel
435 The nuclear lion: what every citizen should know about nuclear power and nuclear war
436 Radiation exposure and occupational risks
578 Introduction to radiobiology
578 The radiological accident in San Salvador
675 Conceptual basis for calculations of absorbed dose distributions
675 Transfer of radionuclides in natural and semi-natural environments
921 Nuclear techniques in the exploration and exploitation of energy and mineral resources
921 Shielding against high energy radiation

CALIBRATION
575 Response to Scarpitta and Harley's 'Radon calibration factor for charcoal canisters'
893 A summary of the proceedings of the workshop on standard phantoms for in-vivo radioactivity measurement
895 The BRMD BOMAB phantom family
916 Low cost age- and sex-specific calibration phantom for in-vivo measurements

CANCER
203 Radium-226 dose to a boy from playing on mill tailings
279 Leukemias in Plymouth County, Massachusetts
282 Carcinogenically active compounds: a reference guide
337 Plutonium- or americium-induced liver tumors and lesions in beagles
405 Too little concern for breast cancer risk in radiation protection estimates?
535 Radon daughter levels in some public and private buildings in India
637 Suitability of Chinese oil well loggers for an epidemiologic study of the carcinogenic effects of neutrons
671 NTS fallout-induced multiple myeloma in Utah
699 Epidemiologic studies of cancer in populations near nuclear facilities

CANCER (CONT.)
745 Lung cancer mortality and exposure to radon progeny in a cohort of New Mexico underground uranium miners
785 Efficacy of air cleaning systems in controlling indoor radon decay products
913 Realistic regulatory control of indoor radon: a response to Mossman and Sollitto

CARBON, ACTIVATED
359 Fluence rate of radon from soil: effect of sorption barriers, moisture content, and temperature

CARBON-14
481 Mobility and plant uptake of inorganic ^{14}C and ^{14}C-labelled PCB in soils of high and low retention
825 Relative importance of atmospheric and root uptake pathways for $^{14}CO_2$ transfer from contaminated soil to plants

CARCINOGENESIS
147 You can't have it both ways: contradictions within Gofman's response to Stovall
148 Supra-linearity in dose response for radiation carcinogenesis: Stovall's mistaken claims
282 Carcinogenically active compounds: a reference guide
395 Biological effects on the cellular level of electric field pulses
405 Too little concern for breast cancer risk in radiation protection estimates?
631 Evidence of a neutron RBE of 70 ($\pm$50) for solid-tumor induction at Hiroshima and Nagasaki and its implications for assessing the effective neutron quality factor
637 Suitability of Chinese oil well loggers for an epidemiologic study of the carcinogenic effects of neutrons

CESIUM-134
387 Incorporation of simulated waste raffinates containing ^{134}Cs into cement-clay matrices

CESIUM-137
271 Multi-fractal nature of radioactivity deposition on soil after the Chernobyl accident
675 Transfer of radionuclides in natural and semi-natural environments
715 Transfer of radiocesium to ruminants in natural and semi-natural ecosystems and appropriate countermeasures
837 Radiocesium dynamics in fruit trees following the Chernobyl accident
885 Effect of dietary intake on the ^{137}Cs retention model
889 Seasonal variations of ^{137}Cs content of milk after the Chernobyl accident

CHARCOAL CANISTERS
131 Equations for calculating radon concentration using charcoal canisters
575 Response to Scarpitta and Harley's 'Radon calibration factor for charcoal canisters'

CHARCOAL FILTERS
137 Autoclave inactivation of infectious radioactive laboratory waste contained within a charcoal filtration system
255 Radioiodine speciation in the hot cell effluent gases of a radiopharmaceutical production facility
543 The measurement system for ^{222}Rn monitoring with charcoal adsorption collectors

CHERNOBYL
271 Multi-fractal nature of radioactivity deposition on soil after the Chernobyl accident
279 Gould and Goldman: Deadly deceit- a defense
401 Concept of a lifetime dose of 350 mSv
675 Transfer of radionuclides in natural and semi-natural environments
715 Transfer of radiocesium to ruminants in natural and semi-natural ecosystems and appropriate countermeasures
837 Radiocesium dynamics in fruit trees following the Chernobyl accident
885 Effect of dietary intake on the ^{137}Cs retention model
889 Seasonal variations of ^{137}Cs content of milk after the Chernobyl accident

COBALT-57
231 Determination of uranium and thorium concentrations in unprocessed soil samples

COBALT-60
843 Monte Carlo calculation and silicon detector measurement of the hot particle dose
859 In vivo assessment of radiation exposure
863 Radioprotection of lethally irradiated animals: formulation and correlations

COMPUTER CALCULATIONS
565 Radiation shielding design for a hot repair facility

COMPUTERS
47 VDTs: field levels, epidemiology, and laboratory studies
431 FREDITOR, Version 1.5
432 RM-60 Radiation Monitor
547 A local area network for controlling the ordering and purchasing of radioactive material
577 Tech,Graph,Pad, version 4.0
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code

COMPUTERS (CONT.)
843 Monte Carlo calculation and silicon detector measurement of the hot particle dose

CONTAMINATION
245 A general multiple-compartment model for the transport of trace elements through animals
427 A list of nuclear medicine radionuclides and potential contaminants for operators of in vivo counters
825 Relative importance of atmospheric and root uptake pathways for $^{14}CO_2$ transfer from contaminated soil to plants
903 Development and use of statistical survey criteria for release of materials at a former uranium processing facility

CONTAMINATION, ENVIRONMENTAL
401 Concept of a lifetime dose of 350 mSv
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code
837 Radiocesium dynamics in fruit trees following the Chernobyl accident
916 Low cost age- and sex-specific calibration phantom for in-vivo measurements

CORRECTIONS
676 Correction for: 'Radiological significance of ^{227}Ac and ^{231}Pa'

COUNTING EFFICIENCY
595 Performance of an array of large-volume germanium detectors for whole-body counting
895 The BRMD BOMAB phantom family

DECONTAMINATION
665 Radiation protection aspects of repairing a highly contaminated tritium cold box
785 Efficacy of air cleaning systems in controlling indoor radon decay products

DETECTOR, ALPHA TRACK
267 Precision of α-track radon exposure estimates determined from field measurements
409 Year-to-year variations in annual average indoor ^{222}Rn concentrations
539 Short- vs. long-term indoor radon measurements

DETECTOR, GERMANIUM
231 Determination of uranium and thorium concentrations in unprocessed soil samples

DETECTOR, RADIATION
367 Monitoring underground radiation fields using powdered calcium sulfate thermoluminescent dosimeters
575 Response to Scarpitta and Harley's 'Radon calibration factor for charcoal canisters'

DETECTOR, SILICON
843 Monte Carlo calculation and silicon detector measurement of the hot particle dose

DETECTOR, THERMOLUMINESCENT
529 Use of thin thermoluminescent dosimeters for phantom surface-dose measurements
849 Ultraviolet response of CaF_2:Tm with high-temperature treatment

DIAGNOSTIC RADIOLOGY
259 Shielding a spectrum of workloads in diagnostic radiology
601 Broad beam transmission properties of some common shielding materials for use in diagnostic radiology
917 Addendum to 'Composite materials for x-ray protection'
917 Comment on 'Composite materials for x-ray protection'

DIFFUSION
225 Correlations for predicting air permeabilities and ^{222}Rn diffusion coefficients of soils
373 Response of the unattached ^{218}Po activity size distribution in H_2O-SO_2-N_2 atmospheres
831 Impact of supersonic versus propeller wind data on dispersion estimates for nuclear plants

DNA
395 Biological effects on the cellular level of electric field pulses

DOSE
623 Biological dosimetry using the micronucleus assay for lymphocytes: interindividual differences in dose-response
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code

DOSE, ABSORBED
111 Modeling gamma absorbed dose due to meandering plumes
145 Dose and field of radiation
146 Comments to Katoh and Tada
675 Conceptual basis for calculations of absorbed dose distributions
859 *In vivo* assessment of radiation exposure

DOSE, INTERNAL
87 An experimental and mathematical analysis of lymphopoiesis dynamics under continuous irradiation

DOSE, INTERNAL (CONT.)
863 Radioprotection of lethally irradiated animals: formulation and correlations
893 A summary of the proceedings of the workshop on standard phantoms for in-vivo radioactivity measurement

DOSE, LOW
432 RM-60 Radiation Monitor

DOSE, SKIN
641 Effects of the tissue-air interface in calculations of β-particle skin dose at a depth of 70 μm
843 Monte Carlo calculation and silicon detector measurement of the hot particle dose

DOSE EQUIVALENT
535 Radon daughter levels in some public and private buildings in India
615 Naturally occurring ^{226}Ra concentrations in bone at various ages and α doses in adults
641 Effects of the tissue-air interface in calculations of β-particle skin dose at a depth of 70 μm
647 Measurements of radioactivity in Jamaican building materials and gamma dose equivalents in a prototype red mud house

DOSE RESPONSE
623 Biological dosimetry using the micronucleus assay for lymphocytes: interindividual differences in dose-response

DOSIMETRY
117 Radon dosimetry based on the depth distribution of nuclei in human and rat lungs
349 Radon exposure system for mammalian cells in culture: design, operation, and dosimetry
623 Biological dosimetry using the micronucleus assay for lymphocytes: interindividual differences in dose-response
859 In vivo assessment of radiation exposure
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium

DOSIMETRY, BETA
641 Effects of the tissue-air interface in calculations of β-particle skin dose at a depth of 70 μm

DOSIMETRY, INTERNAL
191 Metabolism of injected barium in six healthy men

DOSIMETRY, PERSONAL
849 Ultraviolet response of CaF_2:Tm with high-temperature treatment

DOSIMETRY, THERMOLUMINESCENT
367 Monitoring underground radiation fields using powdered calcium sulfate thermoluminescent dosimeters
529 Use of thin thermoluminescent dosimeters for phantom surface-dose measurements
753 A nationwide survey of ^{222}Rn and gamma radiation levels in Australian homes
821 Environmental radiation measurements using TLD-900 at the King Saud University campus, Riyadh, Saudi Arabia

EDITORIALS
697 In appreciation of Pergamon Press

EFFLUENTS
255 Radioiodine speciation in the hot cell effluent gases of a radiopharmaceutical production facility

ELECTROMAGNETIC FIELDS
3 Biological effects of radiofrequency radiation: concepts and criteria
15 Effects of low-energy electromagnetic fields (pulsed and DC) on membrane signal transduction processes in biological systems
41 ELF: Exposure levels, bioeffects, and epidemiology
59 Radiofrequency/microwave protection guides
395 Biological effects on the cellular level of electric field pulses

EMERGENCIES, RADIOLOGICAL
281 The medical basis for radiation accident preparedness II: clinical experience and follow-up since 1979

EMERGENCY PLANNING
281 The medical basis for radiation accident preparedness II: clinical experience and follow-up since 1979
305 Determining optimal protective actions for nuclear incidents

EMISSIONS, ATMOSPHERIC
831 Impact of supersonic versus propeller wind data on dispersion estimates for nuclear plants

EPIDEMIOLOGY
41 ELF: Exposure levels, bioeffects, and epidemiology
47 VDTs: field levels, epidemiology, and laboratory studies
71 Mortality among a cohort of workers monitored for ^{210}Po exposure: 1944-1972
405 Too little concern for breast cancer risk in radiation protection estimates?
637 Suitability of Chinese oil well loggers for an epidemiologic study of the carcinogenic effects of neutrons
699 Epidemiologic studies of cancer in populations near nuclear facilities

EPIDEMIOLOGY (CONT.)
775 Prediction of ^{222}Rn from topography in Pennsylvania

ERRATA
676 Correction for: 'Radiological significance of ^{227}Ac and ^{231}Pa'

EXCRETION, URINARY
575 Human subjects used for biokinetic studies
576 Reply to Jacobson
871 An improved method for the determining ^{89}Sr and ^{90}Sr in urine

EXPOSURE, OCCUPATIONAL
71 Mortality among a cohort of workers monitored for ^{210}Po exposure: 1944-1972
181 A 42-y medical follow-up of Manhattan Project plutonium workers
275 Phosphorus-32 personnel monitoring in research institutions
282 Carcinogenically active compounds: a reference guide
436 Radiation exposure and occupational risks
519 Perspective on the historical development of radiation standards
578 The radiological accident in San Salvador
637 Suitability of Chinese oil well loggers for an epidemiologic study of the carcinogenic effects of neutrons
665 Radiation protection aspects of repairing a highly contaminated tritium cold box
859 In vivo assessment of radiation exposure
919 Radiological significance of ^{227}Ac and ^{231}Pa
919 Reply from UNSCEAR
919 Reply to Lowe et al.
921 Nuclear techniques in the exploration and exploitation of energy and mineral resources

EXPOSURE, POPULATION
305 Determining optimal protective actions for nuclear incidents
436 Radiation exposure and occupational risks
519 Perspective on the historical development of radiation standards
821 Environmental radiation measurements using TLD-900 at the King Saud University campus, Riyadh, Saudi Arabia
879 Indoor ^{222}Rn levels in New York state, North Carolina, and South Carolina

EXPOSURE, RADIATION
87 An experimental and mathematical analysis of lymphopoiesis dynamics under continuous irradiation
263 Radon levels in a high-rise apartment
267 Precision of α-track radon exposure estimates determined from field measurements

EXPOSURE, RADIATION (CONT.)

HISTORICAL REVIEW
519 Perspective on the historical development of radiation standards

HORMESIS, RADIATION
87 An experimental and mathematical analysis of lymphopoiesis dynamics under continuous irradiation

IMAGING
282 The physics of medical x-ray imaging (or the photon and me: how I saw the light)
917 Addendum to 'Composite materials for x-ray protection'
917 Comment on 'Composite materials for x-ray protection'
923 Protection of the patient undergoing a magnetic resonance examination

INCINERATION
421 Management of mixed wastes from biomedical research

INHALATION
117 Radon dosimetry based on the depth distribution of nuclei in human and rat lungs
745 Lung cancer mortality and exposure to radon progeny in a cohort of New Mexico underground uranium miners
809 Pulmonary toxicity of stable and radioactive lanthanides
915 ALIs are not MPBBs
915 Reply to Carter
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium

INSTRUMENTATION
799 Determination of time-varying ^{222}Rn concentrations using flow-through scintillation flasks

INTAKE
885 Effect of dietary intake on the ^{137}Cs retention model

INTERNATIONAL ATOMIC ENERGY AGENCY
578 The radiological accident in San Salvador

INTERNATIONAL COMMISSION ON RADIATION UNITS AND MEASUREMENTS
145 Dose and field of radiation
146 Comments to Katoh and Tada

INTERNATIONAL RADIATION PROTECTION ASSOCIATION
151 Third World Congress of the Ukrainian Medical Association: medical consequences of the Chernobyl disaster
285 Health issues of ultraviolet 'A' sunbeds used for cosmetic purposes
677 Annual meeting of the South African Radiation Protection Association
923 Protection of the patient undergoing a magnetic resonance examination

IODINE-132
255 Radioiodine speciation in the hot cell effluent gases of a radiopharmaceutical production facility

IRRADIATION
863 Radioprotection of lethally irradiated animals: formulation and correlations

JOURNAL CONTENT
697 In appreciation of Pergamon Press

LABORATORY ANIMALS
863 Radioprotection of lethally irradiated animals: formulation and correlations

LEAD-214
511 The half-lives of ^{214}Pb and ^{214}Bi
543 The measurement system for ^{222}Rn monitoring with charcoal adsorption collectors

LEUKEMIA
203 Radium-226 dose to a boy from playing on mill tailings
279 Leukemias in Plymouth County, Massachusetts
631 Evidence of a neutron RBE of 70 ($\pm$50) for solid-tumor induction at Hiroshima and Nagasaki and its implications for assessing the effective neutron quality factor

LIQUID SCINTILLATION
105 Total tritium measurement in atmosphere
501 Determining the ^{222}Rn exhalation rate of building materials using liquid scintillation counting
871 An improved method for the determining ^{89}Sr and ^{90}Sr in urine

LUNGS, HUMAN
117 Radon dosimetry based on the depth distribution of nuclei in human and rat lungs
809 Pulmonary toxicity of stable and radioactive lanthanides

MAGNETIC RESONANCE IMAGING
923 Protection of the patient undergoing a magnetic resonance examination

MANHATTAN PROJECT
181 A 42-y medical follow-up of Manhattan Project plutonium workers

MATRICES
387 Incorporation of simulated waste raffinates containing ^{134}Cs into cement-clay matrices

MEDICAL RADIATION
259 Shielding a spectrum of workloads in diagnostic radiology
465 Calculation of shielding door thicknesses for radiation therapy facilities using the ITS Monte Carlo program
578 Introduction to radiobiology

METABOLISM
191 Metabolism of injected barium in six healthy men

MICROWAVE
29 Microwave radiation absorption: behavioral effects
59 Radiofrequency/microwave protection guides
576 Ad hominem commentaries do not belong in scientific journals

MILK
889 Seasonal variations of ^{137}Cs content of milk after the Chernobyl accident

MINING, URANIUM
763 Practical difficulties in determining ^{222}Rn flux density in underground uranium mines
919 Radiological significance of ^{227}Ac and ^{231}Pa
919 Reply from UNSCEAR
919 Reply to Lowe et al.

MODELING
825 Relative importance of atmospheric and root uptake pathways for $^{14}CO_2$ transfer from contaminated soil to plants

MODELING, METEOROLOGICAL
111 Modeling gamma absorbed dose due to meandering plumes

MODELS
87 An experimental and mathematical analysis of lymphopoiesis dynamics under continuous irradiation
245 A general multiple-compartment model for the transport of trace elements through animals
373 Response of the unattached ^{218}Po activity size distribution in H_2O-SO_2-N_2 atmospheres
405 Too little concern for breast cancer risk in radiation protection estimates?
575 Human subjects used for biokinetic studies
576 Reply to Jacobson
647 Measurements of radioactivity in Jamaican building materials and gamma dose equivalents in a prototype red mud house
763 Practical difficulties in determining ^{222}Rn flux density in underground uranium mines
837 Radiocesium dynamics in fruit trees following the Chernobyl accident
885 Effect of dietary intake on the ^{137}Cs retention model

MONITORING, AIR
105 Total tritium measurement in atmosphere
409 Year-to-year variations in annual average indoor ^{222}Rn concentrations

MONITORING, ENVIRONMENTAL
143 A reply to: 'Let's all play by the same rules!'
145 Thanks for supporting my arguments

MONITORING, PERSONNEL
275 Phosphorus-32 personnel monitoring in research institutions
727 Validation of a personal radon monitor for use in residential ^{222}Rn exposure studies

MONITORS, RADON
209 Study of neutralization of ^{218}Po ions by small ion recombination in O_2, Ar and N_2

MONITORS, RADON (CONT.)
263 Radon levels in a high-rise apartment
267 Precision of α-track radon exposure estimates determined from field measurements
543 The measurement system for ^{222}Rn monitoring with charcoal adsorption collectors
727 Validation of a personal radon monitor for use in residential ^{222}Rn exposure studies
737 Personal and home ^{222}Rn and gamma-ray exposure measured in 52 dwellings

MONTE CARLO
465 Calculation of shielding door thicknesses for radiation therapy facilities using the ITS Monte Carlo program
843 Monte Carlo calculation and silicon detector measurement of the hot particle dose

MORTALITY
71 Mortality among a cohort of workers monitored for ^{210}Po exposure: 1944-1972
745 Lung cancer mortality and exposure to radon progeny in a cohort of New Mexico underground uranium miners

NATIONAL COUNCIL ON RADIATION PROTECTION AND MEASUREMENTS
281 The relative biological effectiveness of radiations of different quality
435 Implementation of the principle of as low as reasonably achievable (ALARA) for medical and dental personnel

NEOPLASMS
337 Plutonium- or americium-induced liver tumors and lesions in beagles

NEUTRONS
631 Evidence of a neutron RBE of 70 (±50) for solid-tumor induction at Hiroshima and Nagasaki and its implications for assessing the effective neutron quality factor
637 Suitability of Chinese oil well loggers for an epidemiologic study of the carcinogenic effects of neutrons

NEVADA TEST SITE
671 NTS fallout-induced multiple myeloma in Utah

NUCLEAR FUEL CYCLE
553 A description of the demonstration integral fast reactor fuel cycle facility
565 Radiation shielding design for a hot repair facility

NUCLEAR MEDICINE
427 A list of nuclear medicine radionuclides and potential contaminants for operators of *in vivo* counters

NUCLEAR REACTOR
699 Epidemiologic studies of cancer in populations near nuclear facilities
831 Impact of supersonic versus propeller wind data on dispersion estimates for nuclear plants

NUCLEAR WAR
435 The nuclear lion: what every citizen should know about nuclear power and nuclear war

NUCLEAR WORKERS
71 Mortality among a cohort of workers monitored for ^{210}Po exposure: 1944-1972
181 A 42-y medical follow-up of Manhattan Project plutonium workers
436 Radiation exposure and occupational risks
578 The radiological accident in San Salvador
917 Addendum to 'Composite materials for x-ray protection'
917 Comment on 'Composite materials for x-ray protection'

NUTRITION PATHWAYS
889 Seasonal variations of ^{137}Cs content of milk after the Chernobyl accident

OBITUARIES
437 Robert Golden, 1921-1990
929 John W. McKlveen, 1943-1991
931 Harold E. Clow, Jr., 1931-1991

OPERATIONAL TOPICS
137 Autoclave inactivation of infectious radioactive laboratory waste contained within a charcoal filtration system
275 Phosphorus-32 personnel monitoring in research institutions
421 Management of mixed wastes from biomedical research
427 A list of nuclear medicine radionuclides and potential contaminants for operators of in vivo counters
547 A local area network for controlling the ordering and purchasing of radioactive material
553 A description of the demonstration integral fast reactor fuel cycle facility
565 Radiation shielding design for a hot repair facility
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code
665 Radiation protection aspects of repairing a highly contaminated tritium cold box
895 The BRMD BOMAB phantom family
903 Development and use of statistical survey criteria for release of materials at a former uranium processing facility

OPTICS
77 Ocular and facial skin exposure to ultraviolet radiation in sunlight: a personal exposure model with applications to a worker population
473 Evaluation of ocular hazards due to electric arc flash at an in-line switch

PARTITION COEFFICIENTS
481 Mobility and plant uptake of inorganic ^{14}C and ^{14}C-labelled PCB in soils of high and low retention

PHANTOM
529 Use of thin thermoluminescent dosimeters for phantom surface-dose measurements
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code
893 A summary of the proceedings of the workshop on standard phantoms for in-vivo radioactivity measurement
895 The BRMD BOMAB phantom family
916 Low cost age- and sex-specific calibration phantom for in-vivo measurements

PHOSPHORUS-32
275 Phosphorus-32 personnel monitoring in research institutions

PHOTONS
259 Shielding a spectrum of workloads in diagnostic radiology
282 The physics of medical x-ray imaging (or the photon and me: how I saw the light)
529 Use of thin thermoluminescent dosimeters for phantom surface-dose measurements
609 Measurement of photon-energy albedo from stratified shielding materials

PHYSICS, HIGH-ENERGY
415 Nuclear reaction effects in use of newly recommended quality factor

PLANT UPTAKE
481 Mobility and plant uptake of inorganic ^{14}C and ^{14}C-labelled PCB in soils of high and low retention

PLUTONIUM-239
181 A 42-y medical follow-up of Manhattan Project plutonium workers
337 Plutonium- or americium-induced liver tumors and lesions in beagles
575 Human subjects used for biokinetic studies
576 Reply to Jacobson

POLONIUM-210
71 Mortality among a cohort of workers monitored for ^{210}Po exposure: 1944-1972

POLONIUM-218
209 Study of neutralization of ^{218}Po ions by small ion recombination in O_2, Ar and N_2
373 Response of the unattached ^{218}Po activity size distribution in H_2O-SO_2-N_2 atmospheres

POTASSIUM-40
647 Measurements of radioactivity in Jamaican building materials and gamma dose equivalents in a prototype red mud house

POWER PLANT, NUCLEAR
143 A reply to: 'Let's all play by the same rules!'
145 Thanks for supporting my arguments
279 Leukemias in Plymouth County, Massachusetts

PRESIDENT'S MESSAGE
179 Progress and challenge for our maturing society

PROTACTINIUM-231
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium
919 Radiological significance of ^{227}Ac and ^{231}Pa
919 Reply from UNSCEAR
919 Reply to Lowe et al.

PUBLIC INFORMATION
143 Response to Hendee's 'Radiation phobia as a culturally mediated reflex'
435 The nuclear lion: what every citizen should know about nuclear power and nuclear war

QUALITY FACTOR
281 The relative biological effectiveness of radiations of different quality
415 Nuclear reaction effects in use of newly recommended quality factor
631 Evidence of a neutron RBE of 70 ($\pm$50) for solid-tumor induction at Hiroshima and Nagasaki and its implications for assessing the effective neutron quality factor

RADIATION
147 You can't have it both ways: contradictions within Gofman's response to Stovall

RADIATION, ALPHA
97 A CAM sampler for collecting and assessing α-emitting aerosol particles

RADIATION, BACKGROUND
601 Broad beam transmission properties of some common shielding materials for use in diagnostic radiology
609 Measurement of photon-energy albedo from stratified shielding materials
753 A nationwide survey of ^{222}Rn and gamma radiation levels in Australian homes

RADIATION, BETA
641 Effects of the tissue-air interface in calculations of β-particle skin dose at a depth of 70 μm

RADIATION, GAMMA
111 Modeling gamma absorbed dose due to meandering plumes
231 Determination of uranium and thorium concentrations in unprocessed soil samples
595 Performance of an array of large-volume germanium detectors for whole-body counting
609 Measurement of photon-energy albedo from stratified shielding materials
647 Measurements of radioactivity in Jamaican building materials and gamma dose equivalents in a prototype red mud house
653 Dose rates for several organs in a human from a contaminated soil and hot particles using the QAD computer code
753 A nationwide survey of ^{222}Rn and gamma radiation levels in Australian homes

RADIATION, LOW-LEVEL

TAILINGS
203 Radium-226 dose to a boy from playing on mill tailings
225 Correlations for predicting air permeabilities and ^{222}Rn diffusion coefficients of soils

THERMOLUMINESCENCE
821 Environmental radiation measurements using TLD-900 at the King Saud University campus, Riyadh, Saudi Arabia
849 Ultraviolet response of CaF_2:Tm with high-temperature treatment

THORIUM
809 Pulmonary toxicity of stable and radioactive lanthanides

THORIUM-232
231 Determination of uranium and thorium concentrations in unprocessed soil samples
647 Measurements of radioactivity in Jamaican building materials and gamma dose equivalents in a prototype red mud house

TOXICITY
349 Radon exposure system for mammalian cells in culture: design, operation, and dosimetry
809 Pulmonary toxicity of stable and radioactive lanthanides

TRANSFER COEFFICIENT
245 A general multiple-compartment model for the transport of trace elements through animals
837 Radiocesium dynamics in fruit trees following the Chernobyl accident

TRANSPORT, ENVIRONMENTAL
715 Transfer of radiocesium to ruminants in natural and semi-natural ecosystems and appropriate countermeasures
889 Seasonal variations of ^{137}Cs content of milk after the Chernobyl accident

TRITIUM
105 Total tritium measurement in atmosphere
665 Radiation protection aspects of repairing a highly contaminated tritium cold box

TUMORS
337 Plutonium- or americium-induced liver tumors and lesions in beagles

ULTRAVIOLET RADIATION
77 Ocular and facial skin exposure to ultraviolet radiation in sunlight: a personal exposure model with applications to a worker population
285 Health issues of ultraviolet 'A' sunbeds used for cosmetic purposes
473 Evaluation of ocular hazards due to electric arc flash at an in-line switch
849 Ultraviolet response of CaF_2:Tm with high-temperature treatment

UPTAKE, PLANT
481 Mobility and plant uptake of inorganic ^{14}C and ^{14}C-labelled PCB in soils of high and low retention
825 Relative importance of atmospheric and root uptake pathways for $^{14}CO_2$ transfer from contaminated soil to plants

URANIUM
203 Radium-226 dose to a boy from playing on mill tailings
225 Correlations for predicting air permeabilities and ^{222}Rn diffusion coefficients of soils
255 Radioiodine speciation in the hot cell effluent gases of a radiopharmaceutical production facility
903 Development and use of statistical survey criteria for release of materials at a former uranium processing facility
918 Radiological significance of ^{227}Ac and ^{231}Pa in inhaled natural uranium
919 Radiological significance of ^{227}Ac and ^{231}Pa
919 Reply from UNSCEAR
919 Reply to Lowe et al.

URANIUM-238
231 Determination of uranium and thorium concentrations in unprocessed soil samples

URANIUM MINES
745 Lung cancer mortality and exposure to radon progeny in a cohort of New Mexico underground uranium miners
763 Practical difficulties in determining ^{222}Rn flux density in underground uranium mines

VIDEO DISPLAY TERMINALS
47 VDTs: field levels, epidemiology, and laboratory studies

WASTE DISPOSAL
387 Incorporation of simulated waste raffinates containing ^{134}Cs into cement-clay matrices

WASTE MANAGEMENT
137 Autoclave inactivation of infectious radioactive laboratory waste contained within a charcoal filtration system
179 Progress and challenge for our maturing society
387 Incorporation of simulated waste raffinates containing ^{134}Cs into cement-clay matrices
421 Management of mixed wastes from biomedical research
903 Development and use of statistical survey criteria for release of materials at a former uranium processing facility

WEAPONS
671 NTS fallout-induced multiple myeloma in Utah
699 Epidemiologic studies of cancer in populations near nuclear facilities
715 Transfer of radiocesium to ruminants in natural and semi-natural ecosystems and appropriate countermeasures

WHOLE-BODY COUNTING
427 A list of nuclear medicine radionuclides and potential contaminants for operators of in vivo counters
595 Performance of an array of large-volume germanium detectors for whole-body counting
885 Effect of dietary intake on the ^{137}Cs retention model
895 The BRMD BOMAB phantom family
915 ALIs are not MPBBs
915 Reply to Carter
916 Low cost age- and sex-specific calibration phantom for in-vivo measurements

X-RAY IMAGING
282 The physics of medical x-ray imaging (or the photon and me: how I saw the light)
917 Addendum to 'Composite materials for x-ray protection'
917 Comment on 'Composite materials for x-ray protection'

X RAYS

259 Shielding a spectrum of workloads in diagnostic radiology
601 Broad beam transmission properties of some common shielding materials for use in diagnostic radiology
623 Biological dosimetry using the micronucleus assay for lymphocytes: interindividual differences in dose-response
